

Melody

Melody offers growers the advantage of early maturity that is 5–7 days earlier than Tri-X® Brand 313. This seedless watermelon hybrid produces a uniform, medium-sized fruit with a globe shape and an attractive red flesh. It also features a smooth skin and a deeper rind color than standard seedless varieties. With a heavy and concentrated fruit set, the average fruit weighs 14–16 lbs. This variety has the added benefit of intermediate resistance to anthracnose and fusarium wilt race 1.

For more information, please contact a ROGERS® sales representative or visit rogersadvantage.com
