

"Next Generation" Melon for the San Joaquin Valley

Gold Express

Gold Express is a western shipper for true main season conditions typically with medium to large fruit size and an excellent dense net for a superior appearance. Designed for prolonged harvest conditions, Gold Express has excellent internal quality featuring a tight seed cavity and dark, firm flesh. Gold Express has performed well in late spring plantings and fall plantings in the Desert Southwest. In the San Joaquin Valley, will provide growers with a main season variety with improved fruit size.
