

New Lamuyo Pepper

Escarlata / RPP 15423¹

Escarlata (RPP 15423) is the new lamuyo pepper from ROGERS® for the San Joaquin Valley. In trials, this high quality lamuyo has shown to yield firm, very smooth, red fruit. The three to four lobed fruit turns red quickly and uniformly.

Escarlata has shown a high tolerance to STIP and has the ability to maintain sets throughout the season providing you with strong yields. The plant is tall with sufficient fruit cover to protect from sunburn.

Now you have available the variety you need to produce a quality lamuyo pepper: Escarlata.

T R I A L D A T A
