

Eastern U.S.

Dividend

Dividend is a hybrid zucchini squash with multiple virus tolerance, including zucchini yellow mosaic virus, which makes it the perfect complement to Spineless Beauty. Commercial plantings in the Midwest, Southeast, and winter production areas have proven Dividend's ability to outperform competing varieties in cooler temperatures with improved fruit length and quality, especially under virus pressure. This variety's vigorous, medium to large sized open bush is easy to harvest, and its uniform fruit have translated to high packouts.

T R I A L D A T A

Approx. Days to Maturity	45 -48
Average Length (in.)	7.5 - 8.5
Average Diameter (in.)	1.5 - 1.75
Shape	Slightly tapered
Fruit Color	Medium green
Plant Type	Open. Vigorous. Medium bush. Very upright.
