

Gentry

Outstanding yields

Gentry is a semi-crookneck summer squash that has consistently produced outstanding yields of butter yellow, smooth-skinned fruit with small blossom scars. Even under high temperatures, yields have been high for this hybrid. Its vigorous bush has fewer spines than competing varieties, which can reduce fruit damage during harvest and maximize profits. Gentry is adapted to most semi-crookneck production areas, particularly in the Southeast.

T R I A L D A T A	
Approx. Days to Maturity	43
Average Length (in.)	5.5 - 6
Average Diameter (in.)	1.5 - 1.75
Shape	Semi-crookneck
Fruit Color	Butter yellow
Plant Type	Vigorous
